PROFESSIONAL PROFILE

I am a dedicated Software Engineer with a strong interest in full-stack development and building simple, intuitive user experiences. In my recent role, I worked across both frontend and backend workflows, contributed to product design, and created internal tools that improved team efficiency. I value collaboration, honesty, and continuous learning, and I strive to deliver meaningful, scalable solutions in every project.

CORE SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- Python
- React
- Vue
- Django
- NodeJS
- PostgreSQL
- TailwindCSS
- NextJS

RELEVANT EXPERIENCE

Founding Engineer, Stash , Dover, DE, USA — March 2025 – March 2026

- Built full-stack and AI-powered features for an AI developer tool using Vue, Pinia, Python Django, and TypeScript implementing CRUD operations, authentication/authorization flows, REST APIs, and PostgreSQL database integrations while delivering scalable, production-ready modules.
- Developed custom VS Code and JetBrains plugins, implemented an MCP server, and integrated AI/LLM-powered features including smart search and context-aware issue analysis; containerized services with Docker and managed CI/CD pipelines via GitHub Actions.
- Served as a founding engineer in an agile startup environment, taking end-to-end ownership of backend architecture, product development, and cross-functional initiatives to drive product growth; wrote and maintained unit tests across frontend and backend codebases.

Frontend Intern, *JotForm,* Ankara, Turkey — August 2024 – Sep 2024

- Developed new features for JotForm's e-signature product using React and TypeScript, improving platform functionality.
- Gained hands-on experience with SaaS products, contributing to JotForm's frontend team.
- Collaborated in a dynamic environment to deliver scalable, high-quality solutions for JotForm's applications.

Frontend Intern, *Mobven,* Istanbul, Turkey — April 2024 – June 2024

- I worked hands-on with SCSS, Vue.js, JavaScript, and React to build high-performing and adaptable applications.
- I collaborated with peers during my internship to develop a practical AI project, leveraging modern frontend technologies.

Frontend Intern, *Turk Telekom***,** Istanbul, Turkey — July 2023 – April 2024

- Created detailed documentation for Tivibu web and mobile apps, improving team communication and collaboration.
- Enhanced system performance by monitoring API calls and contributed to developing a web-based testing tool with the team.

Frontend Intern, *Alfatek***,** Sakarya, Turkey — Sept 2022 – Jan 2023

- Developed real-world applications with Vue.js and GitLab as a Frontend Engineer Intern.
- Gained valuable experience and an in-depth understanding of modern web development.

EDUCATION

Bachelor of Computer Engineering — September 2019 - September 2024
Sakarya University, Sakarya

Bachelor of Software Engineering - Erasmus+ — February 2022 - June 2022
Czech Technical University, Prague
